Melinda Stobbe

## E-Info

Collect various geographical events which happened during the summer holidays

1. Heatwave (Summer 2026)
2. Wildfires in: Spain, France, Belgium, Germany, Italy, Greece, Canada, Turkey  
→ Mediterranean
3. Hot summers → Evacuations
4. Water shortages
5. Baltic Sea overheating → Blue algae infection
6. Earthquakes in: Italy, Colombia
7. Migration from northern Africa into Ceuta (Spain), mostly from Morocco
8. Heat record in France

Collect the most important information and compile them into a flowchart
